

Project Update and Presentation On Euroz Hartleys' Amplify Webinar

Accelerate Resources (ASX:AX8) or ("**Accelerate**" or "the **Company**") is pleased to be presenting at Euroz Hartleys' Amplify Webinar, as one of a line-up of five companies selected for the event, to provide an update on the Company's exploration activities.

We invite investors and shareholders to join the webinar at 10am (AWST) on Wednesday 27th March to hear from Chief Executive Officer, Mr. Luke Meter as he outlines the key catalysts for the Company.

Please refer to the details below to register for the event:

Webinar URL: [Click here to register](#)

Date: Wednesday, 27 March 2024

Time: 10am (AWST)

After registration for the webinar you will receive a conformation email with further instructions and links to join via Zoom, or dial in details.

— ENDS —

This announcement has been produced by the Company's published continuous disclosure policy and approved by the Board.

Euroz Hartleys' Amplify Webinar

Exciting Drill-ready Lithium Targets in the West Pilbara

27th March 2024

Important Notice and Disclaimer

This presentation has been prepared by Accelerate Resources Limited (Accelerate or the Company). It contains general information about the Company's activities current as at the date of the presentation. The information is provided in summary form and does not purport to be complete. This presentation is not to be distributed (nor taken to have been distributed) to any persons in any jurisdictions to whom an offer or solicitation to buy shares in the Company would be unlawful. Any recipient of the presentation should observe any such restrictions on the distribution of this presentation and warrants to the Company that the receipt of the presentation is not unlawful. It should not be considered as an offer or invitation to subscribe for or purchase any securities in the Company that would require a disclosure document under the Corporations Act 2001 (Cth) (Act) or as an inducement to make an offer or invitation with respect to those securities. No agreement to subscribe for securities in the Company will be entered into on the basis of this presentation or any information, opinions or conclusions expressed in the course of this presentation.

This presentation is not a prospectus, product disclosure document or other offering document under Australian law or under any other law. It has been prepared for information purposes only. This presentation contains general summary information and does not take into account the investment objectives, financial situation and particular needs of any individual investor. It is not financial product advice and investors should obtain their own independent advice from qualified financial advisors having regard to their objectives, financial situation and needs. Neither Accelerate nor any of their related bodies corporate is licensed to provide financial product advice.

This presentation and information, opinions or conclusions expressed in the course of this presentation contains forecasts and forward looking information. Such forecasts, projections and information are not a guarantee of future performance, involve unknown risks and uncertainties. Actual results and developments will almost certainly differ materially from those expressed or implied.

There are a number of risks, both specific to Accelerate, and of a general nature which may affect the future operating and financial performance of Accelerate, and the value of an investment in Accelerate including and not limited to title risk, renewal risk, economic conditions, stock market fluctuations, cobalt demand and price movements, timing of access to infrastructure, timing of environmental approvals, regulatory risks, operational risks, reliance on key personnel, reserve estimations, native title risks, foreign currency fluctuations, and mining development, construction and commissioning risk.

You should not act or refrain from acting in reliance on this presentation, or any information, opinions or conclusions expressed in the course of this presentation. This presentation does not purport to be all inclusive or to contain all information which its recipients may require in order to make an informed assessment of the prospects of Accelerate. You should conduct your own investigation and perform your own analysis in order to satisfy yourself as to the accuracy and completeness of the information, statements and opinions contained in this presentation before making any investment decision. Recipients of this presentation must undertake their own due diligence and make their own assumptions in respect of the information contained in this presentation and should obtain independent professional advice before may any decision based on the information.

No representation or warranty, express or implied, is made in relation to the fairness, accuracy or completeness of the information, opinions and conclusions expressed in the course of this presentation. To the maximum extent permitted by law, no representation, warranty or undertaking, express or implied, is made and, to the maximum extent permitted by law, no responsibility or liability is accepted by the Company or any of its officers, employees, agents or consultant or any other person as to the adequacy, accuracy, completeness or reasonableness of the information in this presentation. To the maximum extent permitted by law, no responsibility for any errors or omissions from this presentation whether arising out of negligence or otherwise is accepted. An investment in the shares of the Company is to be considered highly speculative.

Some statements in this presentation regarding future events are forward-looking statements. They involve risk and uncertainties that could cause actual results to differ from estimated results. Forward-looking statements include, but are not limited to, statements concerning the Company's exploration programme, outlook and target sizes. They include statements preceded by words such as "potential", "target", "scheduled", "planned", "estimate", "possible", "future", "prospective" and similar expressions.

Forward Looking Statements

Statements contained in this release, particularly those regarding possible or assumed future performance, costs, dividends, production levels or rates, prices, resources, reserves or potential growth of Accelerate Resources Limited, are, or may be, forward looking statements. Such statements relate to future events and expectations and, as such, involve known and unknown risks and uncertainties. Actual results and developments may differ materially from those expressed or implied by these forward-looking statements depending on various factors.

Cautionary Statement

Certain information in this announcement may contain references to visual results. The Company draws attention to the inherent uncertainty in reporting visual results.

Competent Person Statement – Exploration (Manganese)

Information in this release related to Exploration Results is based on information compiled by Dr. Joseph Drake-Brockman. He is a qualified geologist and a Fellow of the Australian Institute of Mining and Metallurgy (AusIMM). Dr. Drake-Brockman has sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources, and Ore Reserves'. Dr Drake-Brockman is a consultant to Accelerate Resources and consents to the inclusion in this release of the matters based on his information in the form and context in which it appears.

Competent Person Statement – Exploration (Lithium and Gold)

Information in this release related to Exploration Results is based on information compiled by Mr Kevin Joyce. He is a qualified geologist and a Member of the Australian Institute of Geoscientists (AIG). Mr Joyce has sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources, and Ore Reserves'. Mr Joyce is a consultant to Accelerate Resources and consents to the inclusion in this release of the matters based on his information in the form and context in which it appears.

Competent Person Statement – Mineral Resources Estimate

Information in this release that relates to the Woodie Woodie North Mineral Resources Estimate is based on information compiled by Ms Felicity Hughes. Ms Hughes is an independent consultant at ERM Ltd. who was engaged by Accelerate Resources Ltd. and is a Member of the Australian Institute of Geoscientists (AIG) and the Australasian Institute of Mining and Metallurgy (AusIMM). Ms Hughes has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which they are undertaking to qualify as a Competent Person as defined in the 2012 edition of the Australasian Code for the Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). Ms Hughes consents to the disclosure of the information in this report in the form and context in which it appears.

Experienced Board and Management

Richard Hill
Non-Executive Chairman

Commercial geologist with 25 years' experience in the resources industry. He has performed roles as in house lawyer, commercial manager and geologist for several mid cap Australian mining companies and as founding director for a series of successful ASX-listed companies.

Mr Hill is currently the Chairman of New World Resources Ltd and non-executive director for Sky Metals Ltd.

Luke Meter
Chief Executive Officer

Experienced geologists with 18 years of active exploration, development and corporate experience. He has held senior geology and Exploration Manager roles at Novo Resources, De Grey Mining and Artemis Resources and has an intimate understanding of the geology and logistics across the Pilbara mining district.

Yaxi Zhan
Executive Director

Founding Director with nearly 16 years' experience in the mining industry in Australia and China. Skilled in Management and Business Development, with previous roles with ASX-listed resource companies.

Grant Mooney
Non-Executive Director

Background in corporate advisory with extensive experience in equity capital markets, corporate governance and M&A transactions along with a wealth of experience in resources and technology markets. He is a member of the Institute of Chartered Accountants Australia & New Zealand

Mr Mooney serves as Director to several ASX listed companies including Carnegie Clean Energy Ltd and Talga Resources.

Dr Steve Bodon
Non-Executive Director

Dr Steve Bodon has strong business and technical leadership skills and extensive experience in project development from exploration to development & production and has previously held senior leadership roles for a number of large international organisations.

Kevin Joyce
Exploration Manager

Highly regarded geologist with over 25 years' experience across multiple commodities and continents. He has held key senior positions and directorships with companies including Regis Resources, Abra Resources and Resolute Mining.

AX8 Investment Proposition

Why invest in Accelerate Resources now?

- ✓ Current focus on advancing *Karratha Lithium Project* – approx. 90sqkm of tenements located nearby to the mining centres of Karratha, Dampier and Roebourne
- ✓ *Prinsep Project* is a significant new high-grade lithium discovery located on the same belt as Azure Minerals Andover discovery (ASX:AZS)
- ✓ Initial rock chip assays as Prinsep Project have returned grades up to 2.06% Li20
- ✓ Busy pipeline of exploration activity planned over next 6 months to fast-track new lithium discovery
- ✓ Manganese exposure: high-grade and commercial-scale Woodie Woodie-style potential
- ✓ Gold exposure: established gold project in a proven gold producing region

Lithium and Manganese use in EV Batteries

Critical metals for the clean energy transition

Lithium (Li)

- 643,000+ metric tons Supply in 2022.
- 2.14 million metric tons¹ By 2030
- Global demand is expected **to increase seven-fold by 2030**.
- Driven by rising demand of electric vehicles (EV) with EV batteries currently containing 3.2% Li².

¹ Statista – Supply of lithium worldwide in 2022, with projected figures for 2023 to 2030, www.statista.com/statistics/452026/projected-total-supply-for-lithium-globally/

² Visualcapitalist – The Key Minerals in a EV Battery, <http://elements.visualcapitalist.com/the-key-minerals-in-an-ev-battery>

Manganese (Mn)

- An essential mineral for the Steel industry **with no current substitute**.
- **Top Five** most utilised metal on earth³.
- A Critical Mineral for the new battery technology
- Battery demand for manganese set to increase 8-fold this decade⁴

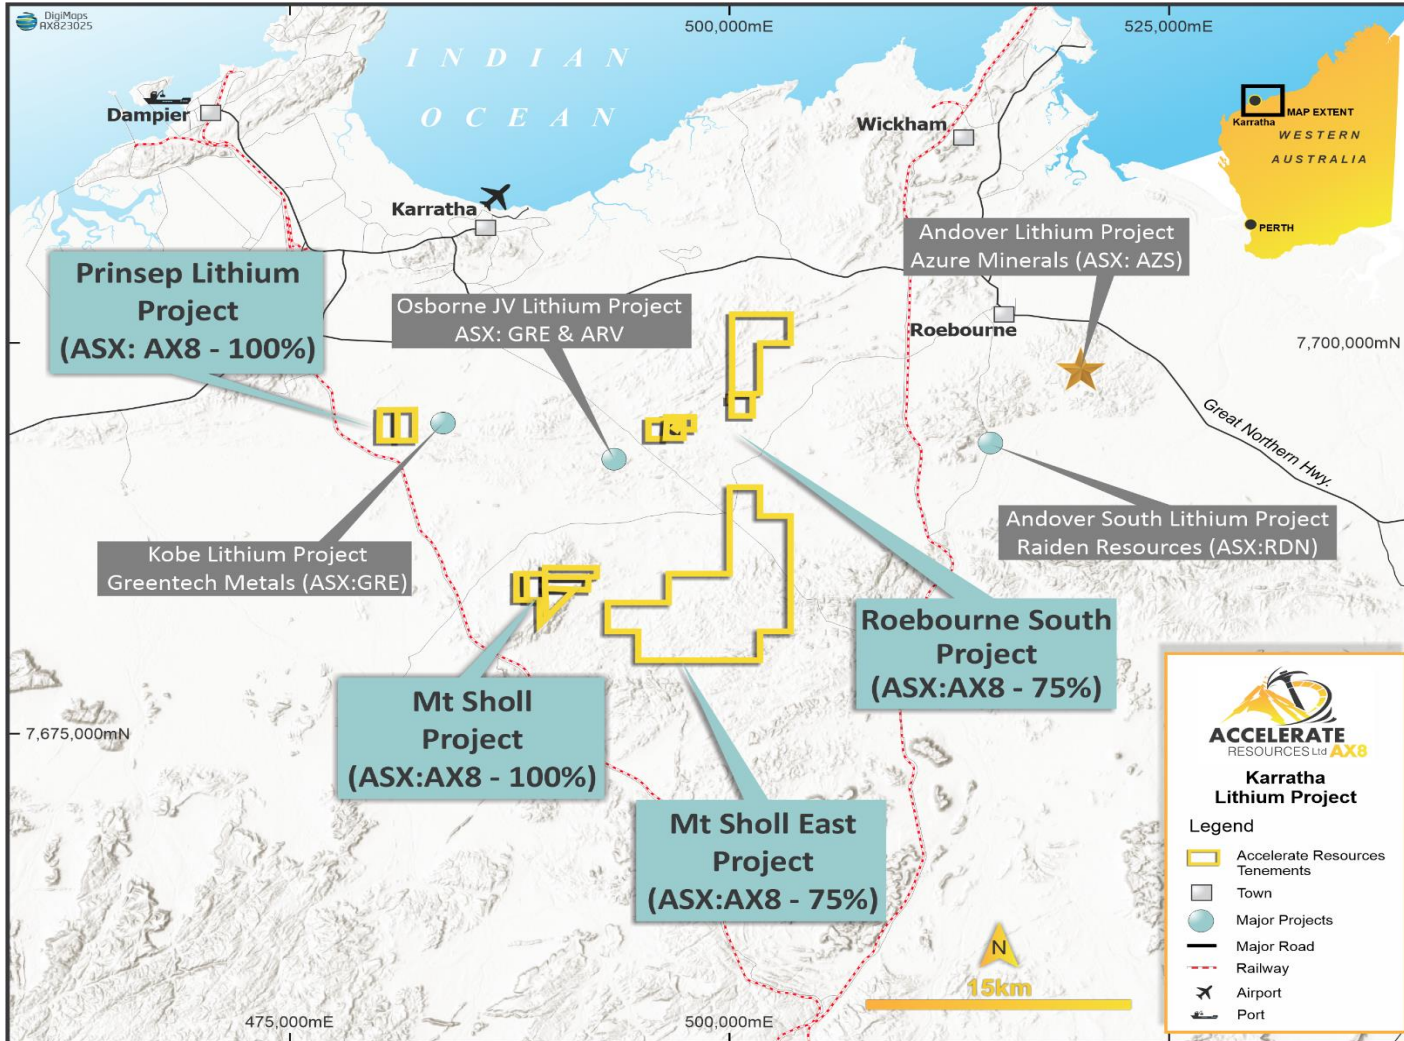

³The International Manganese institute, www.manganese.org

Karratha Lithium Project

Right address and right commodity

Recently Acquired Transformational Acquisition in emerging major West Pilbara lithium province

New discovery with high grade spodumene rich lithium at surface

Scale Potential with 90km² of tenure within the rapidly emerging 40km long Karratha-Roebourne lithium belt

Tier 1 Mining Jurisdiction located 15km south of Karratha and 20km to Dampier Port

Karratha Lithium Project – New Prinsep Project

- **New high grade lithium discovery** consisting of at least two parallel zone of spodumene-rich pegmatite.
- Northern mineralised pegmatite mapped over 1,800m in strike with outcrop **widths up to 60m wide over 1,200m.**
- Southern mineralised pegmatite system mapped across full 2,000m strike extent of tenement package, with multiple sheared dykes occurring within a zone up to 50m wide.
- Native Title and Heritage Exploration Agreement Signed.
- Heritage survey and works approvals advancing **with drilling expected to commence early Q2 2024.**

Karratha Lithium Project – New Prinsep Project

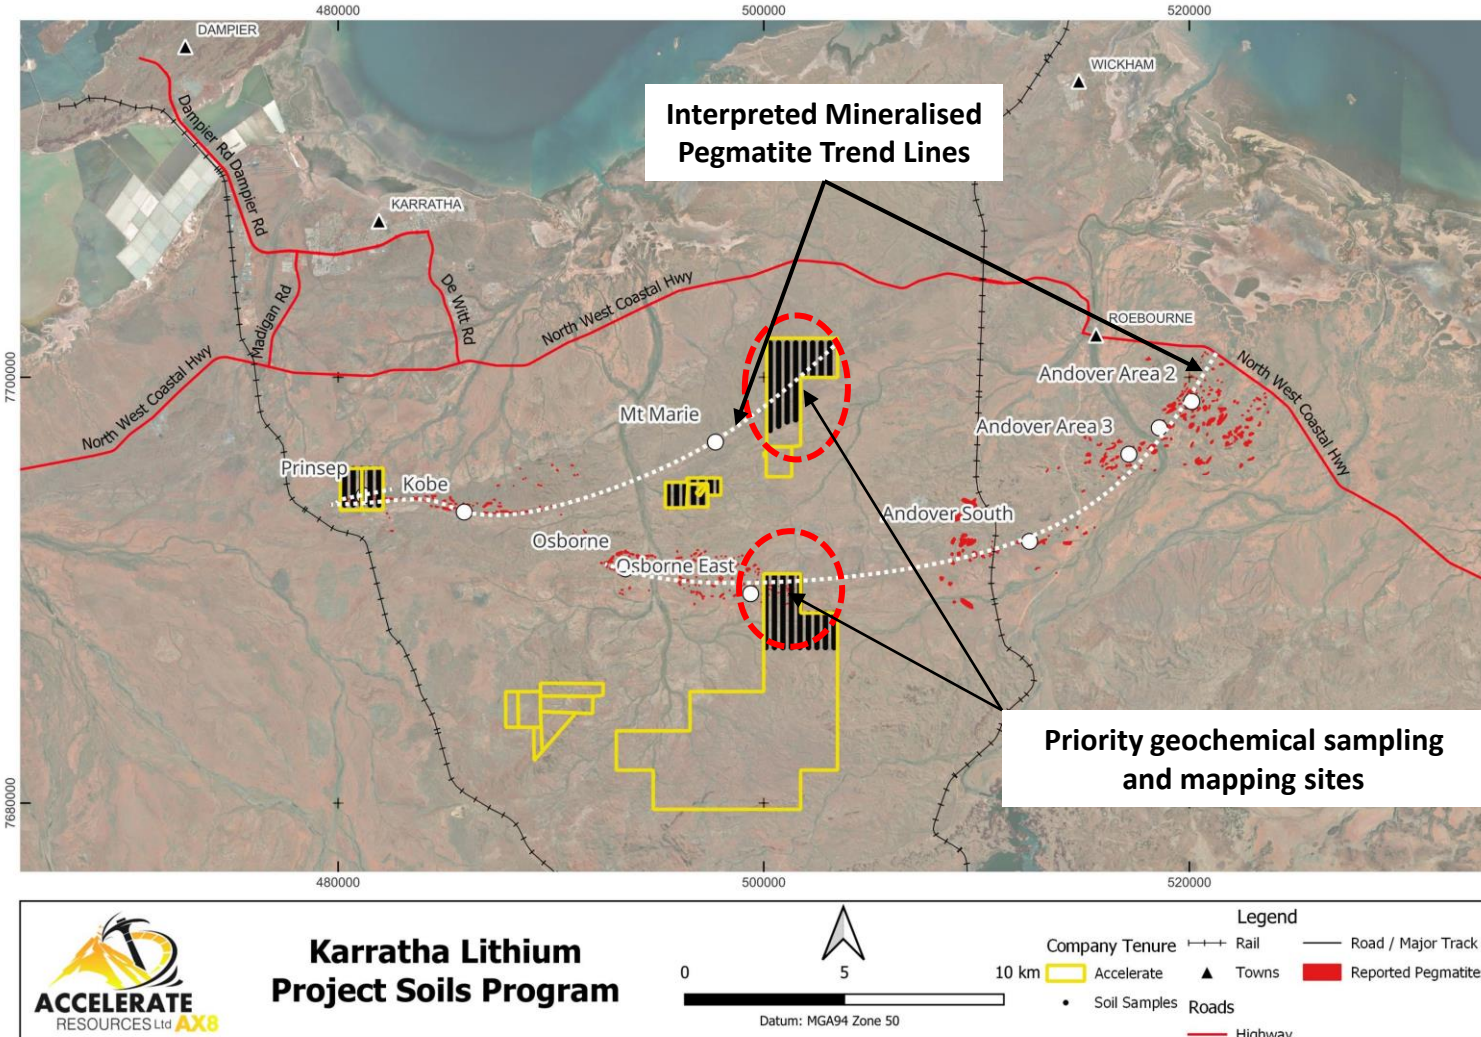

- **Strong mineralisation continuity** confirmed over Prinsep northern pegmatite trend.
- **Continuous mineralisation defined** across whole 45 - 60 metre outcrop width over a strike length of 650m.
- Rock Samples collected every 5 metres on north-south traverses over four lines for 42 samples with rock assays up to **1.6% Li₂O**.
- Majority of samples above **0.5 % Li₂O**.

Karratha Lithium Project – Prinsep Project

Prinsep spodumene bearing pegmatite sample under white and UV light – spodumene has an orange fluorescence

Karratha Lithium Project – Exploration Upside

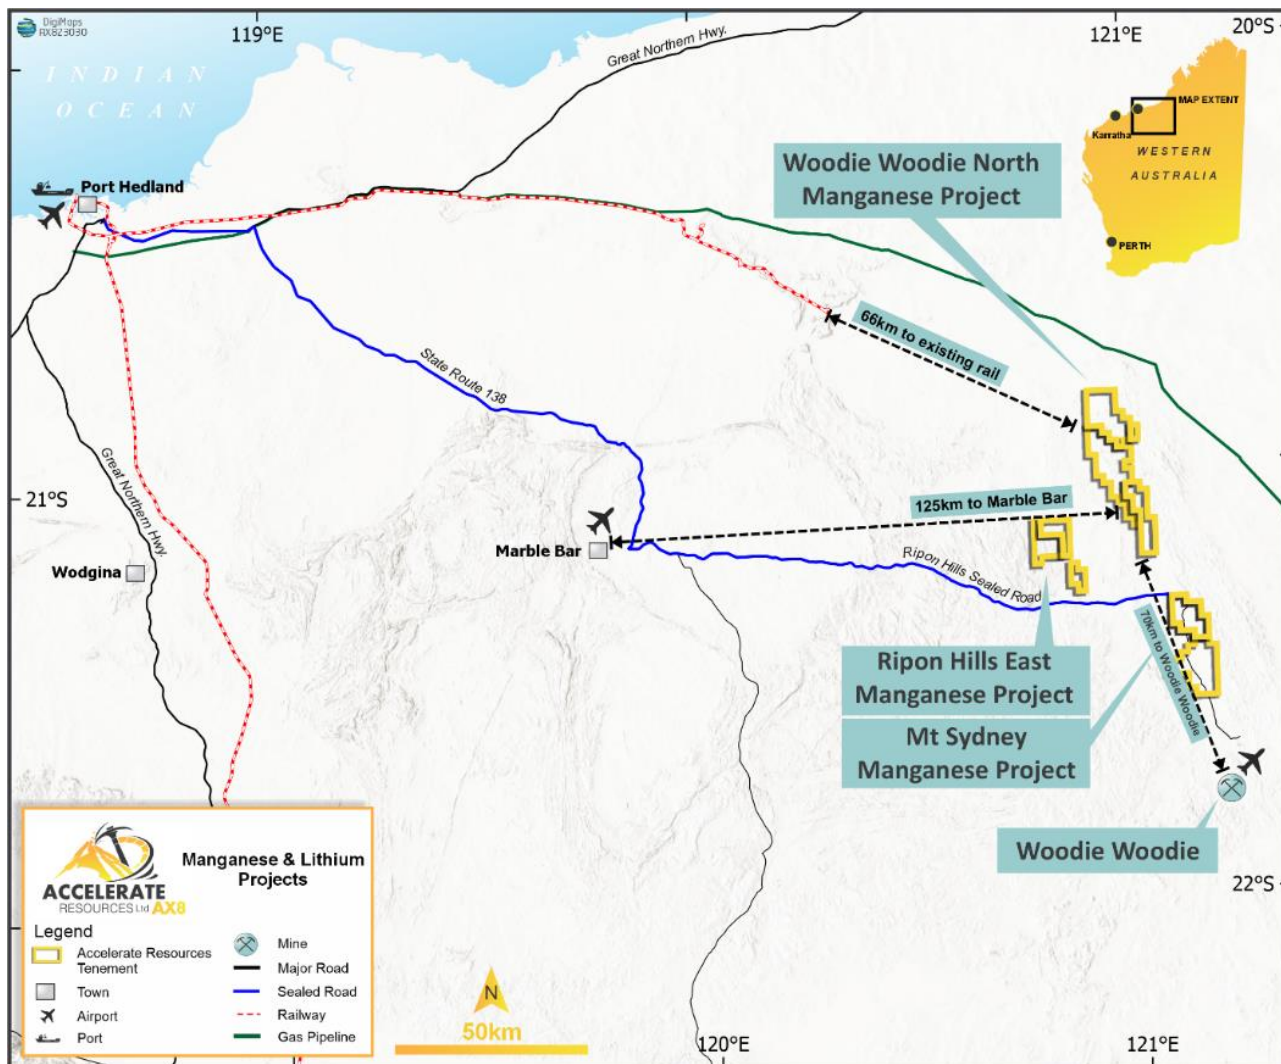

- Extensive soil program to commence at the start of April 2024 across highly prospective corridors within the Prinsep, Mt Sholl East and Roebourne South projects.
- In conjunction with mapping, the soils program will be used to identify new mineralised pegmatites and / or new undercover trends.
- Samples will also be collected over known mineralisation at Prinsep to assist in defining new targets.

Reported pegmatites compiled by company ASX releases.
 5/02/2024: ARV Significant new pegmatite discovery.
 22/12/2023: RDN Independent technical analysis.
 7/12/2023: GRE Rock chip results.
 5/10/2023: ARV Multiple Pegmatites Discovered
 20/01/2023 : AZS Outstanding lithium grades at Andover to Drive Q1 Drilling

Woodie Woodie North Manganese Project

High-Grade Mineral Resource with significant exploration upside

70km
to Woodie Woodie
Manganese Mine

240km
to Port Hedland
(Bulk Commodity
Port)

30km
to sealed road

570km²
of prospective

Woodie Woodie North Manganese Project

Maiden Inferred Mineral Resource Estimate

1.2 Mt at 19.1 % Mn (15% Mn cut-off)

Near Term Exploration Target

5.3 Mt – 10.7 Mt at 10% - 19% Mn

Area	JORC Classification	Tonnes (Mt)	% Mn	% Fe	% SiO ₂	% Al ₂ O ₃	% P
Area 1	Inferred	0.04	17.2	14.6	25.8	2.2	0.1
Area 3	Inferred	0.3	17.5	20.1	27.9	3.0	0.1
Area 4	Inferred	0.2	16.1	21.8	34.0	2.3	0.1
Area 42	Inferred	0.7	20.7	15.6	35.6	3.3	0.1
TOTAL	Inferred	1.2	19.1	17.6	33.1	3.0	0.1

Notes:

- Mineral Resources reported at cut-offs of 15% Mn
- Due to the effects of rounding, the total may not represent the sum of all components.
- Mineral Resource Estimate prepared by ERM Group Company (previously CSA Global)

Woodie Woodie North Prospects and Mineral Resource Locations

Near-Term Value Catalysts

- ✓ Maiden drilling expected to commence at the Prinsep Lithium Project in early Q2 2024
- ✓ Rapid progression from first drill hole to resource and mining license application
- ✓ Strong pipeline of exploration currently underway across the Karratha Lithium Projects - including surface mapping
- ✓ Near term manganese exploration target of 5.3 Mt to 10.7 Mt at 10% Mn- 19% Mn
