

Receipt of Request to call General Meeting of Shareholders

Accelerate Resources Limited (“Accelerate” or “the Company”) notes that on 20 September 2018 it received a notice under section 249D of the *Corporations Act 2001* (Cth) (“Notice”) signed by GTT Global Opportunities Pty Ltd (“Requisitioning Shareholder”) requisitioning a general meeting of the Company to consider resolutions for the removal of Non-Executive Chairman Mr Grant Mooney and Non-Executive Director Mr Terry Topping from the Board, and the election of Mr Charles Thomas to the Board (“Proposed Resolutions”).

The Company is in the process of reviewing the validity of the Notice and the Proposed Resolutions. If the Notice is confirmed as valid, the Company will call a meeting of shareholders to be held within 2 months of receipt of the Notice in accordance with the requirements of the *Corporations Act*. A copy of the Notice is attached to this announcement.

The Board of Directors of Accelerate – including Managing Director Ms Yaxi Zhan and Executive Director Mr Andrew Haythorpe, who are not the subject of the Proposed Resolutions – unanimously agrees that the Proposed Resolutions are not in the best interests of all shareholders. As such, the Board intends to vote their shares **AGAINST** the Proposed Resolutions and recommend shareholders also vote **AGAINST** the Proposed Resolutions.

Accelerate listed on the ASX in February 2018 with a carefully selected portfolio of several high-quality projects located in world-class districts with a history of production and hosting advanced gold, cobalt, copper, nickel, exploration prospects. Since then, the Company has been focused on delivering on its strategy and proposed exploration spending budgets, as set out in the Company’s IPO prospectus less than 12 months ago, by evaluating these projects’ mineral exploration potential and the proposed development scenarios presented, in particular at the Mount Read cobalt project.

Exploration to date at the Thomas Creek prospect has significantly de-risked the Mount Read project. Exploration has including expanded soil geochemical, induced polarisation (IP) surveys, downhole electromagnetics (EM) surveys and stage one diamond drilling program. The program of work at Thomas Creek has successfully tested the main geophysical IP target zone and has delivered positive results, including **discovery of a large porphyry system at Mount Read**¹.

The Board of Accelerate is highly encouraged by the results and remains focused on actively pursuing its stated exploration strategy.

Accelerate notes that Mr Charles Thomas and Mr Rocco Tassone, who signed the Notice on behalf of the Requisitioning Shareholder, are also Executive Directors and Founding Partners of GTT Ventures Pty Ltd ("GTT Ventures"). GTT Ventures was Corporate Advisor and Lead Manager for the Company's IPO, and has been retained as a corporate advisor at a rate of \$10,000 per month since listing on the ASX. The corporate advisory retainer with GTT Ventures is due to expire in November 2018.

Recently, GTT has been advocating for Accelerate to deviate from the exploration strategy set out in the Company's IPO prospectus, advising Accelerate to stop spending on the Mount Read project. The Board of Accelerate is concerned that the Proposed Resolutions are a mechanism for GTT to implement its strategy and gain access to the Company's cash asset.

The Board of Accelerate disagrees with this approach and considers it in the best interests of shareholders for Accelerate to continue with the current Board, which will ensure the ongoing implementation of the strategy set out in the Company's IPO prospectus less than 12 months ago that is aimed at increasing shareholder value through a systematic project development approach at Mount Read.

Shareholders are invited to contact the Company if they wish to discuss further or require additional information.

Yours sincerely,
Board of Accelerate

Yaxi Zhan
